Local Important Farmland
for
Town of East Hampton, Connecticut

The Town of East Hampton, Connecticut, has concern for certain additional farmlands for production of food, feed, fiber, and forage, even though these lands are not identified as having national or statewide importance. According to the Code of Federal Regulations, title 7 part 657, these lands have been identified by the local agency concerned as ***Local Important Farmland*** and approved by the signatories below.

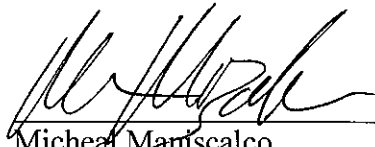

Map Symbol	Soil Name
46B	Woodbridge fine sandy loam, 2 to 8 percent slopes, very stony
46C	Woodbridge fine sandy loam, 8 to 15 percent slopes, very stony
51B	Sutton fine sandy loam, 2 to 8 percent slopes, very stony
58B	Gloucseter gravelly sandy loam, 3 to 8 percent slopes, very stony
58C	Gloucseter gravelly sandy loam, 8 to 15 percent slopes, very stony
61B	Canton and Charlton soils, 3 to 8 percent slopes, very stony
61C	Canton and Charlton soils, 8 to 15 percent slopes, very stony
73C	Charlton-Chatfield complex, 3 to 15 percent slopes, very rocky
85B	Paxton and Montauk fine sandy loams, 3 to 8 percent slopes, very stony
85C	Paxton and Montauk fine sandy loams, 8 to 15 percent slopes, very stony

The undersigned hereby designate the above named soil mapunits as ***Local Important Farmland*** soils and officially add these soils to the list of Prime and Statewide Important Farmland soils for the Town of East Hampton, Connecticut.
